Boca Raton, Florida | sushmasrikondamareddy2@gmail.com | +1 (561) 565-7499 | Sushma-Sri

Professional Summary

Software Engineer with over 2 years of experience in full-stack web application development using Java, Python, Spring Boot, Spring MVC, Hibernate, and Angular. Proficient in building RESTful APIs, microservices, and cloud-based solutions with Microsoft Azure and Docker. I am skilled in CI/CD pipelines, Agile methodologies, and database management (MySQL, PostgreSQL) with a strong focus on performance, scalability, and code quality.

Technical Skills

- **Programming Languages:** Java, Python, JavaScript, TypeScript, SQL
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Hibernate, Angular
- **Web Technologies:** HTML5, CSS3, RESTful APIs, JSON
- **Database Management:** MySQL, PostgreSQL
- **Cloud & DevOps Tools:** Microsoft Azure, Docker, CI/CD Pipelines (GitHub Actions, Jenkins)
- **Version Control & Collaboration:** Git, GitHub, JIRA, Confluence
- **Testing & Debugging:** JUnit, TestNG, Postman
- **Development Methodologies:** Agile (Scrum), Microservices Architecture
- **Other Skills:** Performance Optimization, Troubleshooting, Scalable Application Design

Work Experience

Software Engineer in Hindustan

Computers Limited (HCL)

Client: CISCO Chennai - India

Aug 2022 – Jul 2024

Backend Development:

- Developed and maintained RESTful APIs using Spring Boot and Spring MVC to support scalable web applications.
- Implemented Microservices architecture, ensuring modular, maintainable, and high-performing backend solutions.
- Integrated Spring Security with JWT-based authentication to enhance API security and access control.
- Utilized Hibernate and JPA for efficient database interaction, entity mapping, and query optimization.
- Designed, optimized, and maintained SQL queries across PostgreSQL, MySQL, and Oracle databases to improve data performance and reliability.

Frontend Development:

- Developed Single Page Applications (SPAs) using Angular and React with TypeScript for responsive and high-performing web interfaces.
- Built dynamic and interactive UI components leveraging HTML5, CSS3, Bootstrap, and Tailwind CSS to enhance user experience.
- Managed application state efficiently using Redux (React) and RxJS (Angular) for seamless data flow and performance optimization.

DevOps & Deployment:

- Utilized Git and GitHub/GitLab for version control, collaborative development, and efficient code management.
- Containerized applications using Docker and deployed services on AWS, Azure, and GCP to ensure scalable and reliable cloud operations.
- Implemented CI/CD pipelines with Jenkins and GitHub Actions to automate builds, testing, and deployments, improving development efficiency and delivery speed.

Agile & Collaboration:

- Collaborated in an Agile/Scrum environment, actively participating in daily stand-ups, sprint planning, and retrospective meetings to ensure timely project delivery.

- Worked closely with cross-functional teams, including UI/UX designers and DevOps engineers, to deliver cohesive and high-quality software solutions.
- Conducted code reviews and adhered to best practices for clean, maintainable, and efficient code.

Performance & Optimization:

- Optimized application performance by implementing caching strategies (Redis) and lazy loading for faster data retrieval.
- Monitored and analyzed application logs using the ELK Stack (Elasticsearch, Logstash, Kibana) to identify and resolve performance bottlenecks.
- Enhanced backend response times through SQL query optimization and asynchronous processing, improving overall system efficiency.

Additional Contributions:

- Researched and implemented industry-standard security practices, including OAuth2 authentication and CORS handling, to safeguard application data.
- Developed unit and integration tests using JUnit and Mockito to ensure code reliability, functionality, and maintainability.
- Created technical documentation for APIs and project architecture to facilitate knowledge sharing and streamline onboarding.

Education

Florida Atlantic University,
Florida, USA *Master's in Computer*
Science GPA: **3.67/4.0**

Aug 2024 – Present Apr 2018 –

Narayana Engineering College
Bachelor's in Computer Science
CGPA: **9.42**

May 2022

Certification

- Microsoft Azure Fundamentals
- CCNA (Cisco Certified Network Associate)
